Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, claims 1-12, in Paper No. 4, received September 24, 2003 is acknowledged.
2. Claims 13-16 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 4.

Drawings

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the client terminal having a financial management program, a commercial web server, a web browser must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 3, the phrase “financial management program” is not clear. From Applicant’s specification, page 7, lines 5, “a personal financial management program step 105” is disclosed and further referenced, e.g. page 7, line 13, page 10, lines 3-4. However, it is not clear what comprises the financial management program.

Claims 2, 4, 7, the phrase “financial management application” lacks antecedent basis.

Claim 9 references latter claim 10. This is improper claim format.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 1-12, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Treyz et al., US 6,587,835.

Treyz discloses a client terminal, e.g. 12, 28, 42, 44, to access products using a web server/browser or the like, e.g. col. 10, lines 56-67, col. 12, lines 11-37, where a financial transaction, e.g. cols. 17-18, lines 59-40, via a credit card, may be executed. Treyz does not specifically disclose a financial management system comprising a financial management

Art Unit: 3627

program. As understood, a financial management system comprising transaction data is common knowledge in the business art, as are notes fields and reminder prompts. To have provided such for Treyz would have been obvious to one of ordinary skill in the art. Doing such would implement common knowledge system, notes fields and reminder prompts with the purchasing ordering system of Treyz.

8. Further pertinent references of interest are noted on the attached PTO-892.
